

## Student Photo Use and Policy Agreement

During the year, Saint Basil Catholic School often has the opportunity to photo and/or videotape our students in a variety of school-related activities. As such, these photos/videotapes may be used in various communication tools such as our school website and Facebook page, local newspapers, parish bulletin, and other mediums of communication. Highlighting the achievements and celebrating the successes of our school is a way of sharing with our parents and parishioners the many great things in which our students participate. However, our goal is to respect your privacy as well. Therefore, parents/guardians are requested to indicate their wishes regarding St. Basil's use of student photographs, videotapes, or images.
